

Outdoor Solar Security Light

energy efficiency I easy Installation

Semi Wide

interior corners

Motion detection for

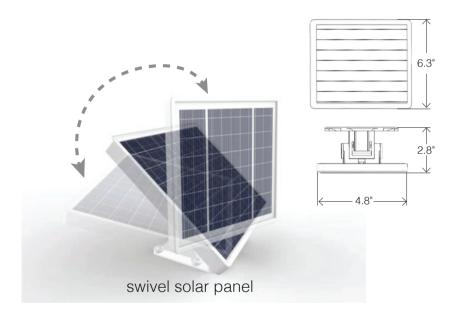

Auto re-set Manual Override or re-set by flipping the switch within 3" Narrow Motion detection for interior corners

- Initial charge is suggested for 2-3 days.
- After fully charged, light can be used for 90 mins. If the time is set for 60 sec, the light can be triggered for 90 times.
- Installs easily with no wiring needed
- Perfect for sheds, barns, decks & pathways
- Provides emergency power in case of storms or other power failures

Solar powered, no need for electricity

Monocrystalline silicon solar panel

Waterproof and weather resistant

Heat resistant to 65° Celsius degrees

300 LUMEN PACKAGE

120° Motion Sensor Solar Powered LED Floodlight

LJC-SLCXX-S-V2

- Motion sensor detects motion 120° up to 25 ft.
- 300 lumens
- Integrated Li-ion batteries provide up to 60 min. running time
- Easy installation with mounting bracket for portable/ emergency use
- Integral polycrystalline solar panel, no wiring necessary
- Auto 1 minute fixed time setting
